**Description:**

- The **online banking application** allows bank customers to perform most standard banking activities in a self-directed manner without needing to visit a bank branch or contact customer service.

**Features:**

1. Transfer money between accounts within the same bank.
2. Use an electronic wire to send funds to another a financial institution.
3. Check the customer's account balance(s).
4. View the history of all of the customer's previous account transactions.
